	Male healthy life expectancy (years)	N/A	68.7	+23%	2011
	Female healthy life expectancy (years)	N/A	69.9	+19%	2011
	Under 25s whose day-to-day activities are limited by disability	83	4%	-30%	2011

The number of 18-24 year olds in Cathcart and Simshill has decreased by 13% since 2011, while the number of 12-17 year olds has decreased by 20%. Healthy life expectancy for males is approximately 13 years higher than Glasgow as a whole and 11 years higher for females.

Pupil attainment in Cathcart and Simshill is markedly higher than the Glasgow average, while child poverty and P1 obesity levels are lower. Fewer children than average live in proximity to green space and primary school children are less likely to walk to school. Secondary school attendance is higher than Glasgow overall while referrals to children and adolescent mental health services and the proportion of children and young people from minority ethnic groups are lower than the Glasgow average.

Notes

1. Data sources: Census 2011, GCPH, Glasgow City Council, HMRC - Child Poverty Unit, ISD Scotland, National Records of Scotland (NRS), Transport Scotland, Sustrans, Police Scotland, the Scottish Government and the Urban Big Data Centre, Glasgow University.
2. Indicators are aggregated using latest available datazone (2001 or 2011); neighbourhood boundaries based on 2001 datazones.
3. All count figures of less than 5 (denoted as '< 5') have been suppressed to avoid any potential identification.
4. Populations presented in the population trend chart, also used to calculate healthy life expectancy estimates, use NRS small area population estimates for the years 2011 - 2015.
5. 'Healthy life expectancy' is an estimate of the average number of years people are likely to spend in good health. It is shorter than 'life expectancy' because it excludes years likely to be spent in fair or poor health. It is calculated using population estimates, death registrations and self-assessed health from the 2011 Census.
6. Denotes children referred to the Scottish Children's Reporter Administration for an offence or non-offence related reason.
7. A notes and definitions document providing further information on the indicators presented in the profile can be found in the Profiles section of www.understandingglasgow.com/profiles.
