	Babies exposed to passive smoking	N/A	5%		-65% 2014/15
	Babies with birth weight below 2500g	14	2%		-12% 2013 - 2015
Culture and Environment	Children who walk to primary school	N/A	60%		+13% 2008 - 2015
	Under 16s living within 400m of green space	1,872	84%		+6% 2014
	P1 children who are obese or severely obese	N/A	7%		+14% 2012/13 - 2014/15
	Hospitalisations for dental treatment (per 1,000 pop'n under 16)	28	12.6		-5% 2014
Crime and Safety	Referrals to Scottish Children's Reporter Administration <sup>6</sup>	26	1%		-35% 2015/16
	Offenders (per 1,000 pop'n aged 8 to 18)	36	29.0		-3% 2015/16
	Victims of crime (per 1,000 pop'n aged 8 to 18)	35	28.2		+34% 2015/16
	Emergency hospitalisations due to assault (per 1,000 pop'n under 25)	N/A	0.4		-69% 2010/11 - 2014/15
	Emergency hospitalisations for unintentional injuries (per 1,000 pop'n under 15)	N/A	11.2		+12% 2010/11 - 2014/15
Socio-Economic	Children in poverty	565	25%		-14% 2013
	Lone parent households	409	34%		-15% 2011
	Overcrowded households with children	437	27%		+48% 2011
Learning and Education	Children with communication delay at 27 to 30 months	69	21%		-9% 2014
	S4 pupils achieving 5 or more qualifications at SCQF Level 5	34	44%		+29% 2012 - 2013
	Secondary school attendance	N/A	93%		+2% 2013/14
	School leavers with a positive destination	69	93%		+4% 2013
	16 to 19 year olds not in employment, education or training	229	20%		-29% 2012
Health and Wellbeing	Pre-school children with likely development difficulties	N/A	5%		-22% 2012 - 2014
	Referrals to Children and Adolescent Mental Health Services	69	3%		-2% 2015/16
	Male healthy life expectancy (years)	N/A	57.8		+3% 2011
	Female healthy life expectancy (years)	N/A	59.9		+2% 2011
	Under 25s whose day-to-day activities are limited by disability	345	4%		-32% 2011

The number of 12-17 and 18-24 year olds in Hillhead and Woodlands has remained steady since 2011, while the number of 0-4 year olds has increased by 26%. Healthy life expectancy for males is approximately 2 years higher than Glasgow as a whole and 1 year higher for females.

Pupil attainment and P1 obesity levels in Hillhead and Woodlands are higher than the Glasgow average, while child poverty is lower. More children than average live in proximity to green space and primary school children are more likely to walk to school when compared to Glasgow overall. Secondary school attendance and the proportion of children and young people from minority ethnic groups are higher than the Glasgow average while referrals to children and adolescent mental health services are on a par with Glasgow overall.

Notes

1. Data sources: Census 2011, GCPH, Glasgow City Council, HMRC - Child Poverty Unit, ISD Scotland, National Records of Scotland (NRS), Transport Scotland, Sustrans, Police Scotland, the Scottish Government and the Urban Big Data Centre, Glasgow University.
2. Indicators are aggregated using latest available datazone (2001 or 2011); neighbourhood boundaries based on 2001 datazones.
3. All count figures of less than 5 (denoted as '< 5') have been suppressed to avoid any potential identification.
4. Populations presented in the population trend chart, also used to calculate healthy life expectancy estimates, use NRS small area population estimates for the years 2011 - 2015.
5. 'Healthy life expectancy' is an estimate of the average number of years people are likely to spend in good health. It is shorter than 'life expectancy' because it excludes years likely to be spent in fair or poor health. It is calculated using population estimates, death registrations and self-assessed health from the 2011 Census.
6. Denotes children referred to the Scottish Children's Reporter Administration for an offence or non-offence related reason.
7. A notes and definitions document providing further information on the indicators presented in the profile can be found in the Profiles section of [www.understandingglasgow.com/profiles](http://www.understandingglasgow.com/profiles).
