The number of 0-24 year olds in Yoker and Scotstoun has decreased by 7% since 2011, with the largest decreases being among 0-4 year olds (13%) and 18-24 year olds (10%). Healthy life expectancy for males and females is approximately 2 years higher than Glasgow as a whole.

Pupil attainment and child poverty in Yoker and Scotstoun are higher than in Glasgow overall, while P1 obesity levels are comparable with the Glasgow average. More children live in proximity to green space and more primary school children walk to school than in Glasgow overall. Secondary school attendance and referrals to children and adolescent mental health services are on a par with the Glasgow average while the proportion of children and young people from minority ethnic groups is higher.

Notes

1. Data sources: Census 2011, GCPH, Glasgow City Council, HMRC - Child Poverty Unit, ISD Scotland, National Records of Scotland (NRS), Transport Scotland, Sustrans, Police Scotland, the Scottish Government and the Urban Big Data Centre, Glasgow University.
2. Indicators are aggregated using latest available datazone (2001 or 2011); neighbourhood boundaries based on 2001 datazones.
3. All count figures of less than 5 (denoted as '< 5') have been suppressed to avoid any potential identification.
4. Populations presented in the population trend chart, also used to calculate healthy life expectancy estimates, use NRS small area population estimates for the years 2011 - 2015.
5. 'Healthy life expectancy' is an estimate of the average number of years people are likely to spend in good health. It is shorter than 'life expectancy' because it excludes years likely to be spent in fair or poor health. It is calculated using population estimates, death registrations and self-assessed health from the 2011 Census.
6. Denotes children referred to the Scottish Children's Reporter Administration for an offence or non-offence related reason.
7. A notes and definitions document providing further information on the indicators presented in the profile can be found in the Profiles section of www.understandingglasgow.com/profiles.
